# Price notification

How price notification work ?

It's very simple 😊 , you set the price level from which you want to receive a message, turn on the alert by setting the "true" over the set price and it's ready 😊.
You will receive one message when the price reaches the indicated level, in order to receive another information about the price you need to reinstall EA on the chart.
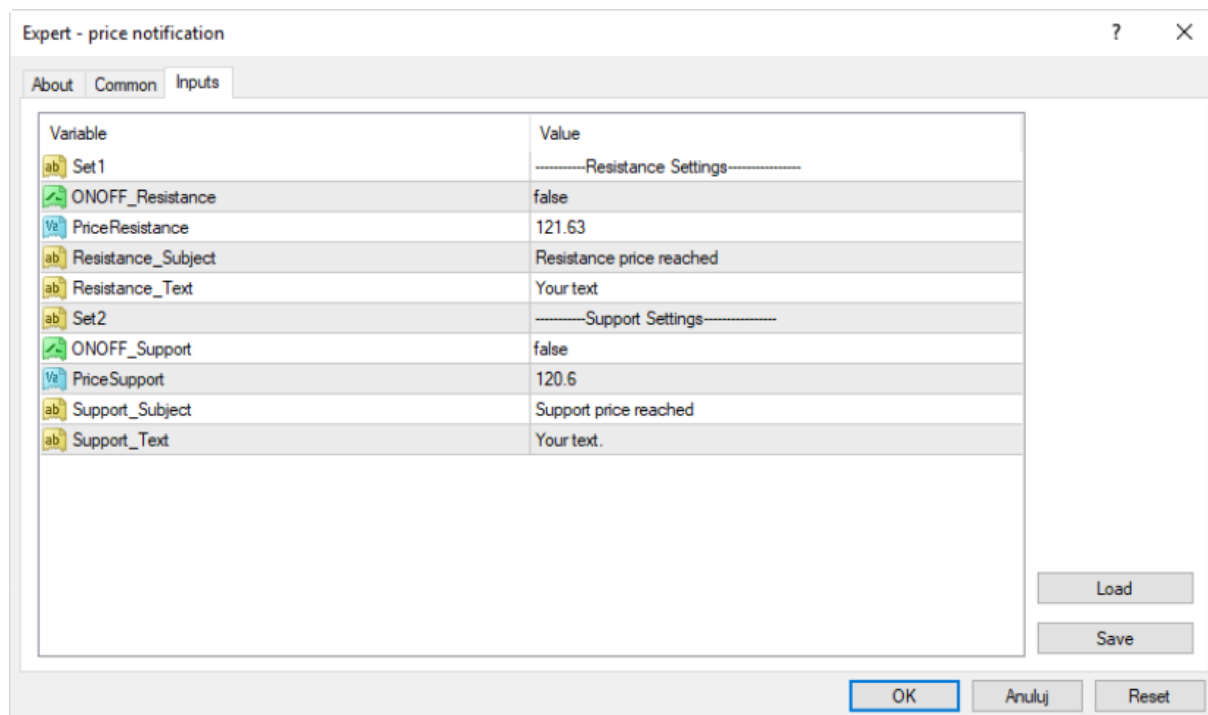

IMPORTANT

Remember that this is an Expert Advisor so your platform must be enabled also like the "Autotrading" button and you must correctly configure the options for sending e-mail

How to instal ?

copy Range Breakout EA EX4 file to default folder

Open platform -> Click on file in menu -> open data folder -> MQL4 -> Experts

Enjoy with free strategies 😊
